

➤ Create a Turnitin.com Account:

Go to <https://www.turnitin.com>

If you do not have an account, click “Create account” under the Log-In.

Go to New Users. Create a New User account; choose Student.

Input Class ID and Password (you won’t use these again after you’ve logged in, because you will use your own ID and Password).

Classes	Class ID	Enrollment Password
English III Period 0	10403252	password
English III Period 3	10403270	password
English III Period 4	10403282	password
English II Period 5	10403330	password
English II Period 6	10403336	password

Input your e-mail address. If you don’t have one, use your name@turnitin.com -for example, louise@turnitin.com

Create a password. Use lower case, at least one number, and at least six letters/characters long. *Make sure it is something you can remember!*

- Provide a Secret Question and Answer.
- Provide your first and last names.
- Agree to the User Agreement.
- Finish and go to the next step.

Click on your class.

The next time you go to Turnitin.com, you will log-in, go to your class, and choose “Assignments.”

➤ Create a G-Mail account – then you may save work in Google Docs

Note the password you provide to G-mail. The resource Google Docs will be available, a safe place to save writings on-line. After you have made an account, you can **Upload** a saved file to keep it there for access. In the Mac labs, save your document to your desktop first for easier location, then upload.

➤ Last step: Go to my web page, input the information in “Enroll.”

If you used Turnitin last year or the year before use your same e-mail address and password to log in. If you can’t remember the password, choose “Forgot Your Password?” to prompt the program to let you choose a new password. Then go to “Enroll in a Class” to add the class for this year.

➤ Create a Turnitin.com Account:

Go to <https://www.turnitin.com>

If you do not have an account, click “Create account” under the Log-In.

Go to New Users. Create a New User account; choose Student.

Input Class ID and Password (you won’t use these again after you’ve logged in, because you will use your own ID and Password).
